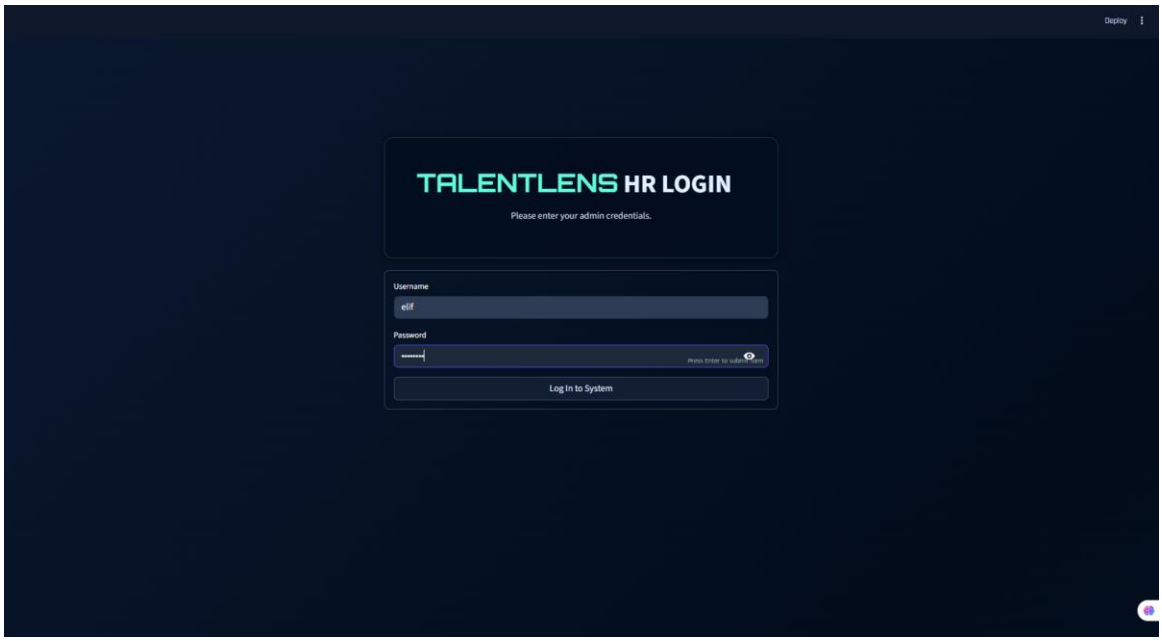
TALENTLENS

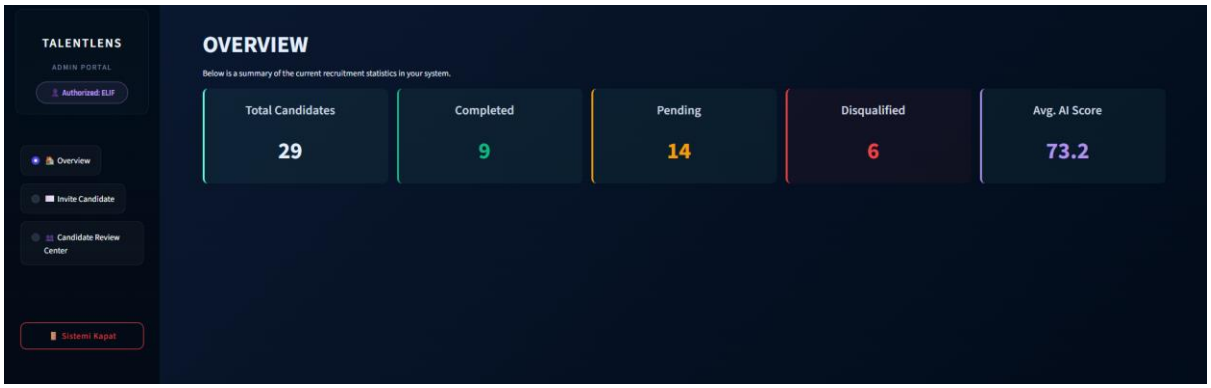
(ELİF YILMAZ / BERFİN YİĞİT)

Admin Portal

HR Management & Admin Control Center

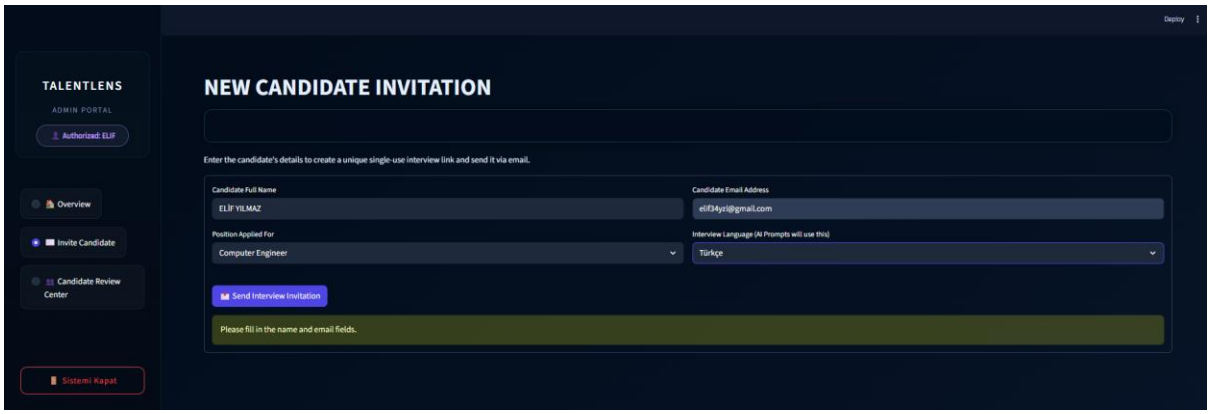
- **Centralized Control:** A secure dashboard designed for HR professionals to manage the entire recruitment lifecycle.
- **Real-Time Analytics:** Interactive metric cards display:
  - **Total Candidates:** Full funnel tracking.
  - **Completed vs. Pending:** Monitoring the progress of active interviews.
  - **Disqualified Candidates:** Instant alerts for security violations.
  - **Average AI Score:** Overall quality of the candidate pool at a glance.

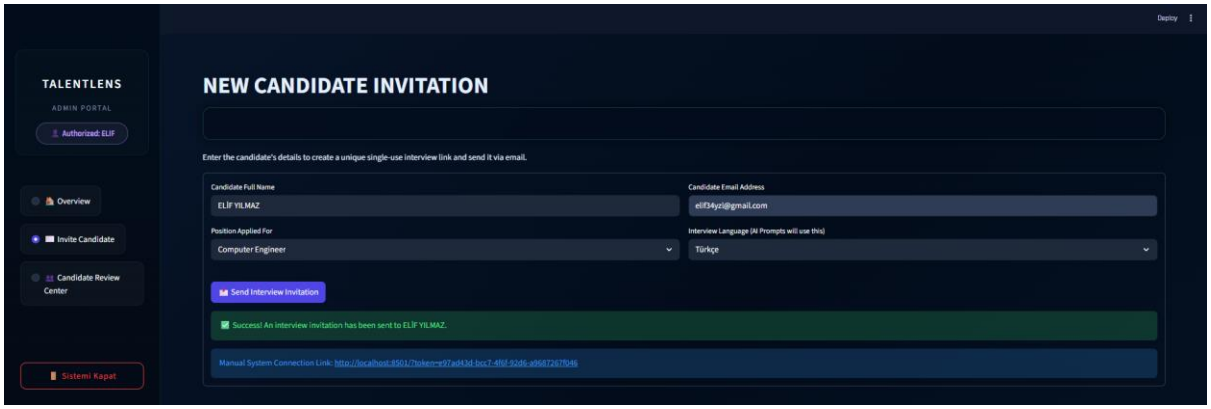




Smart Candidate Invitation System

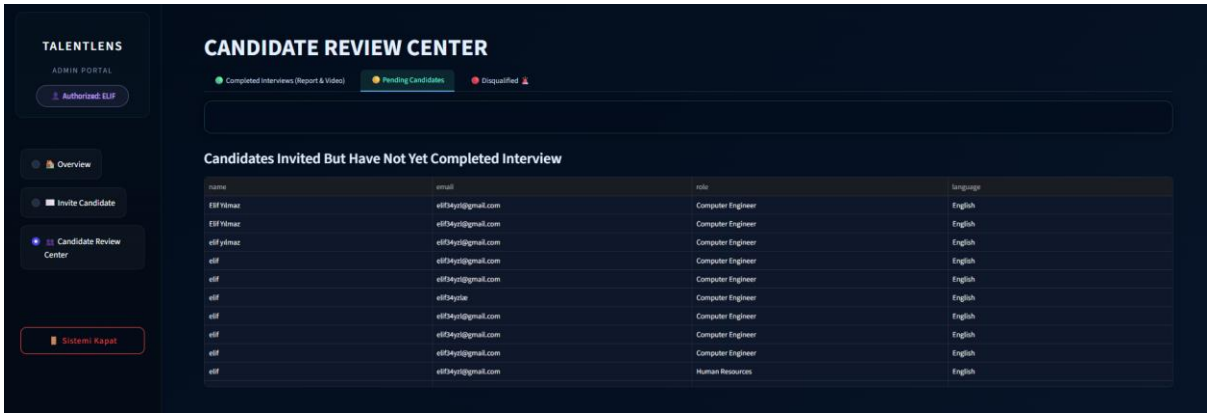
- **Dynamic Link Generation:** Creates unique, single-use tokens for each candidate using the `uuid` library.
- **Automated Email Integration:** Integrated SMTP server automatically sends professional invitation emails containing the secure interview link and exam protocols.
- **Personalized Setup:** HR can pre-define the **Role** (e.g., Computer Engineer) and **Interview Language** (English, Turkish, etc.) for each candidate.

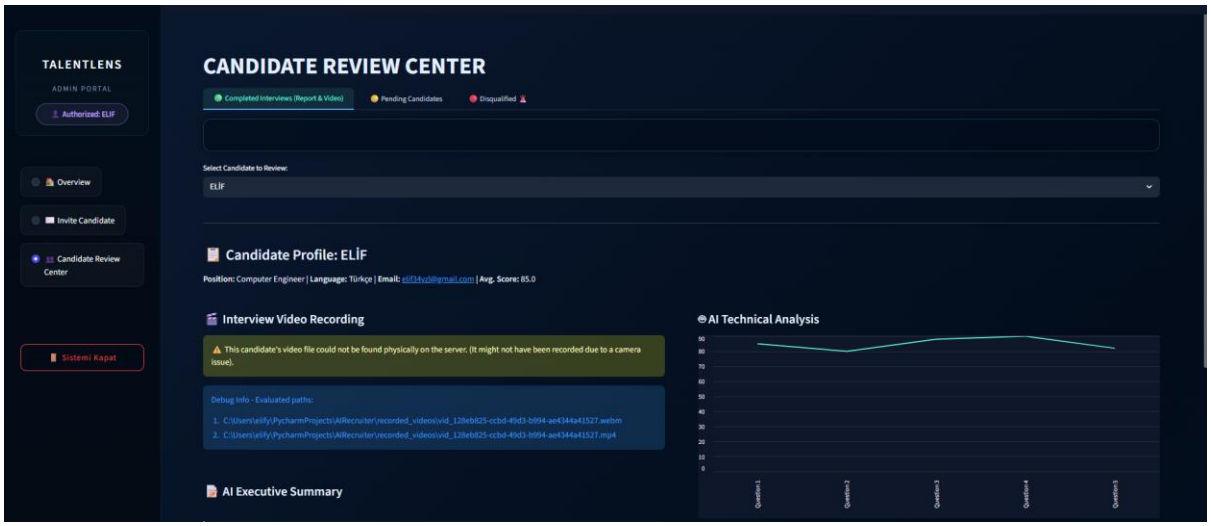


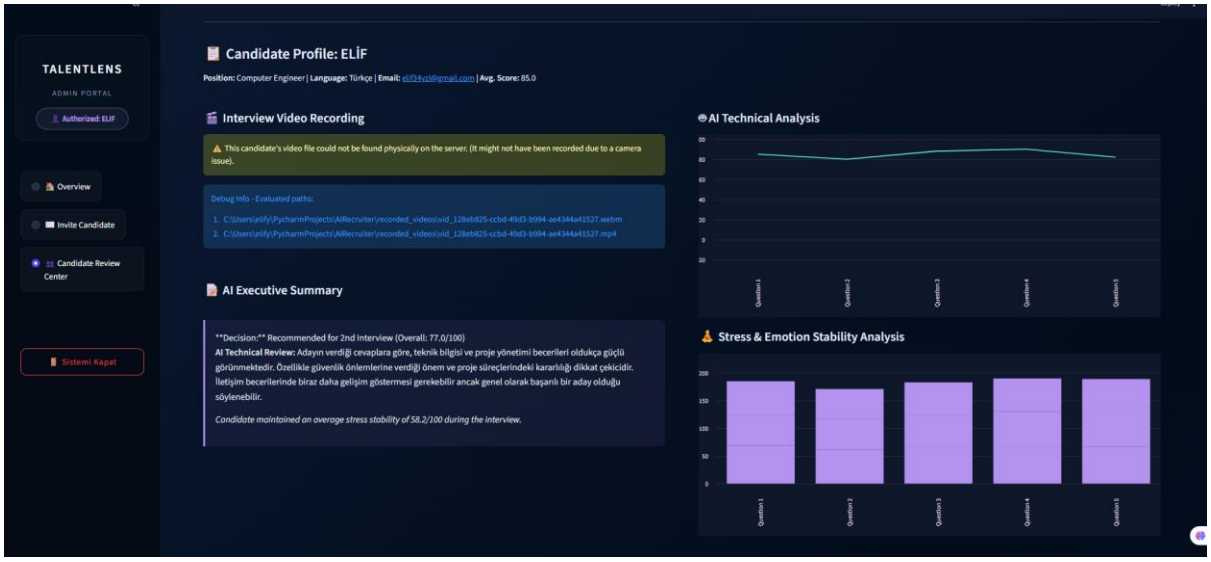


Comprehensive Candidate Review Center

- **Multimedia Assessment:** HR can watch the **recorded video** of the candidate directly on the dashboard.
- **AI Executive Summary:** A professional assessment report generated by GPT-3.5, summarizing technical performance and fit.
- **Data Visualization:** Interactive charts show:
    - **Technical Performance:** Question-by-question scoring.
    - **Emotional Stability:** AI-driven stress and emotion analysis throughout the session.

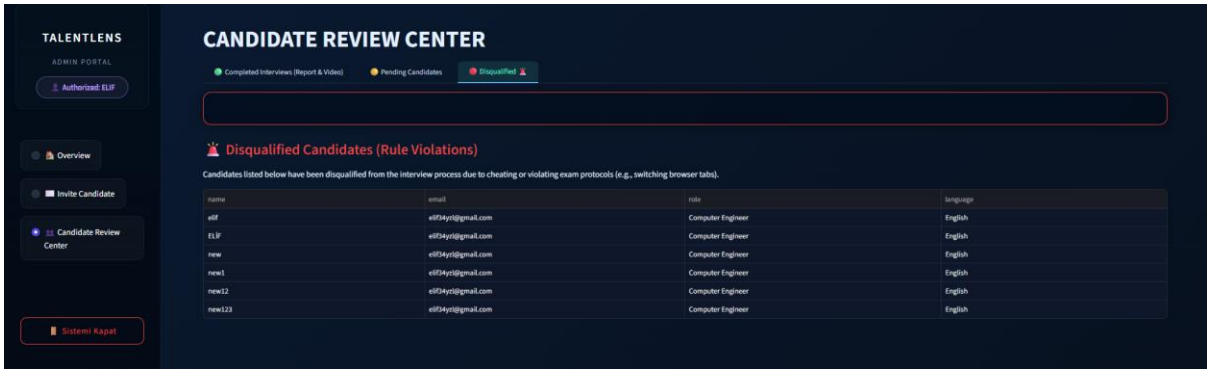






Integrity & Security Monitoring

- **Anti-Cheat Tracking:** Candidates who violate protocols (tab switching or focus loss) are automatically flagged and moved to the "Disqualified" list.
- **Data Persistence:** All candidate actions, evaluation scores, and video paths are securely stored in a local **SQLite database**, ensuring data integrity and fast retrieval.



Candidate Portal

Secure Candidate Onboarding

- **Token-Based Authentication:** Candidates access the system via unique, single-use encrypted URLs (UUID). Unauthorized access is impossible.
- **Personalized Experience:** The interface dynamically adapts to the candidate's specific **Role** and chosen **Language**.
- **Modern UI/UX:** A stress-reducing, premium "Glassmorphism" design with clear instructions and protocols before the interview begins.

TALENTLENS AI

Dear **ELİF YILMAZ**,

Your application for the position at our company has been positively evaluated.

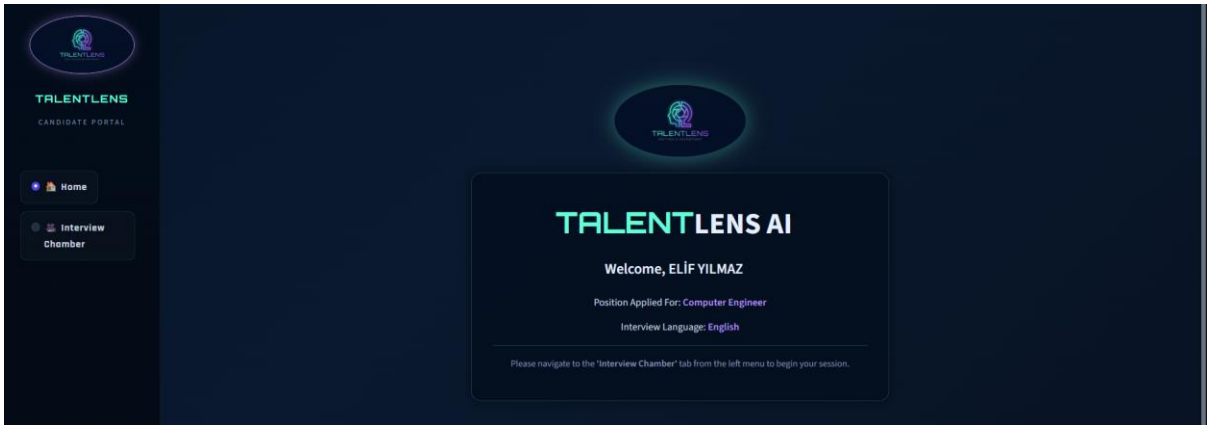
You are invited to the next stage of our recruitment process: an AI-powered video interview.

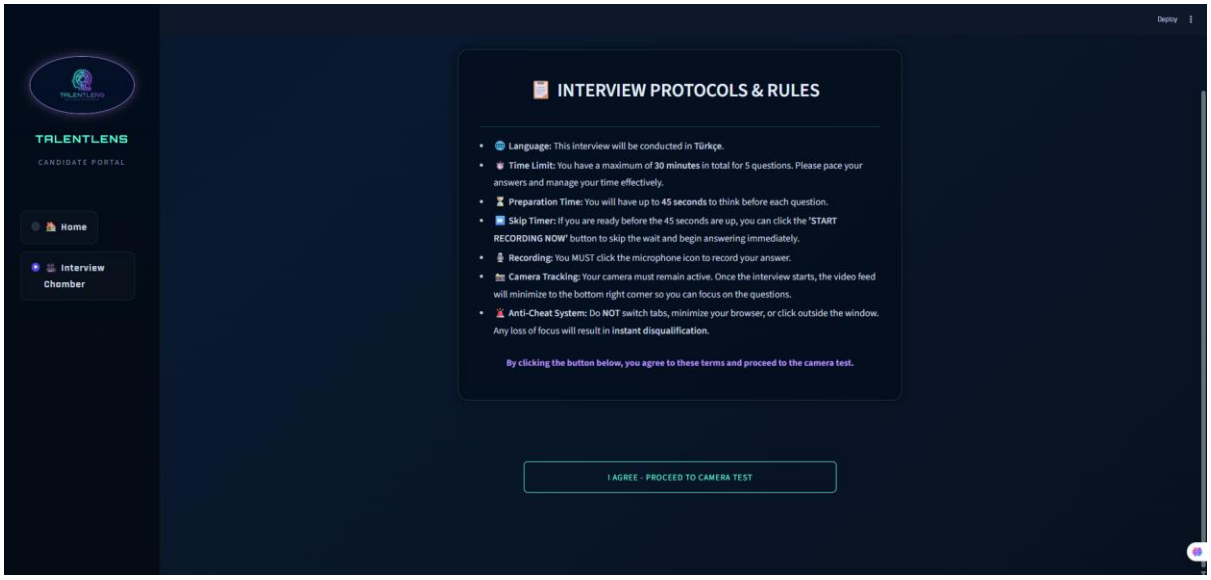
📌 **Important Pre-Interview Reminders:**

- Your interview will be conducted in: **Türkçe**
- Please ensure you are in a quiet and well-lit environment.
- Make sure to allow your browser camera access.
- **ATTENTION:** Exam security is active. Switching tabs during the interview will automatically terminate your session.

Start Interview

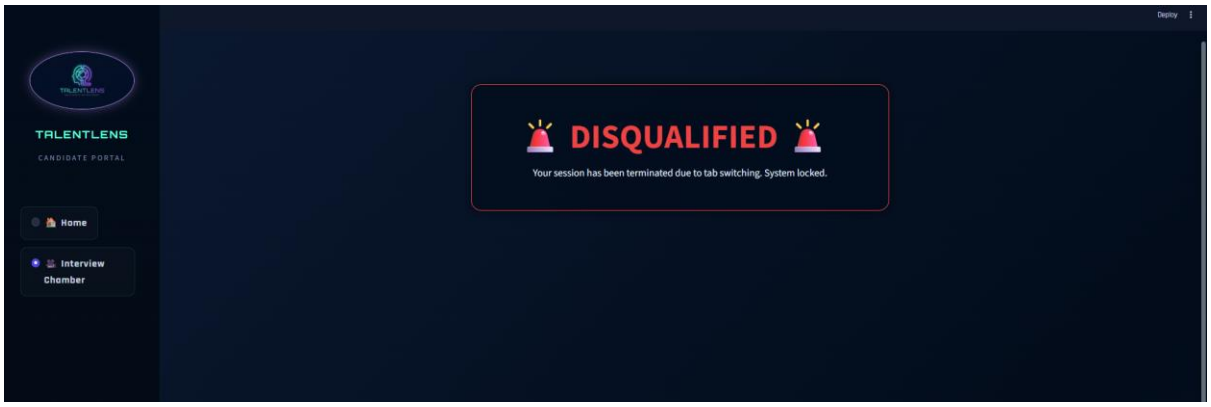
We wish you success,
Human Resources Department





Slide 2: Zero-Tolerance Anti-Cheat System

- **Visibility Tracking:** Embedded JavaScript continuously monitors window focus. Switching browser tabs or minimizing the window triggers an immediate **Instant Disqualification**.
- **Continuous Face Tracking:** Uses WebRTC and OpenCV (Haar Cascades). If the candidate leaves the frame or multiple faces appear, the system issues an automatic on-screen warning.



Slide 3: The AI Interview Chamber

- **Generative Questions:** No static question banks. The AI generates 5 *unique*, behavioral questions on the fly based on the candidate's profession.
- **Paced Environment:** A 45-second neon preparation timer gives candidates time to think, with an option to skip and start immediately.
- **Dual-Capture Technology:** Records high-definition WebM/MP4 video for emotion analysis, while simultaneously capturing crystal-clear audio files for AI transcription.

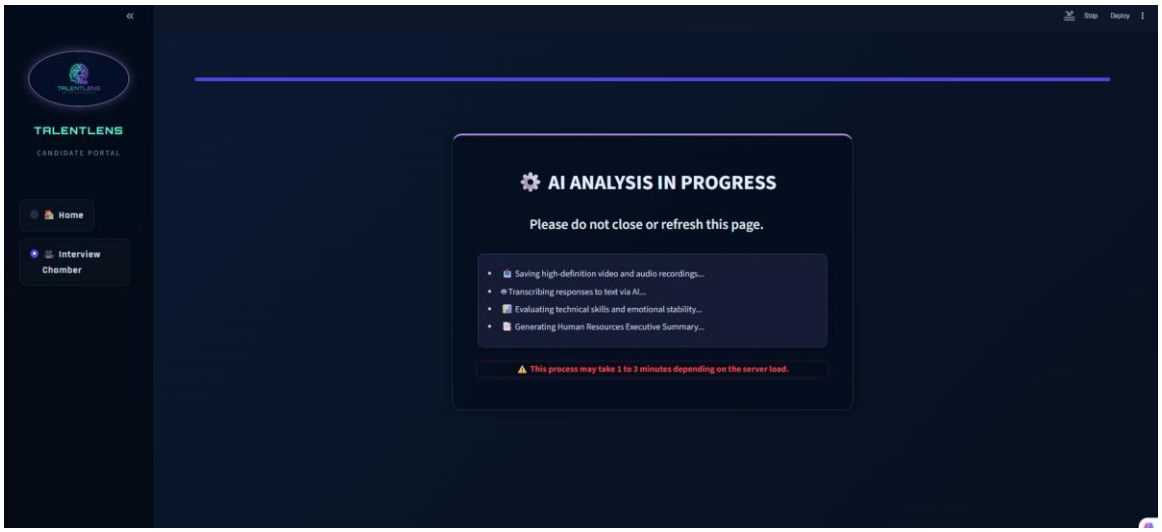
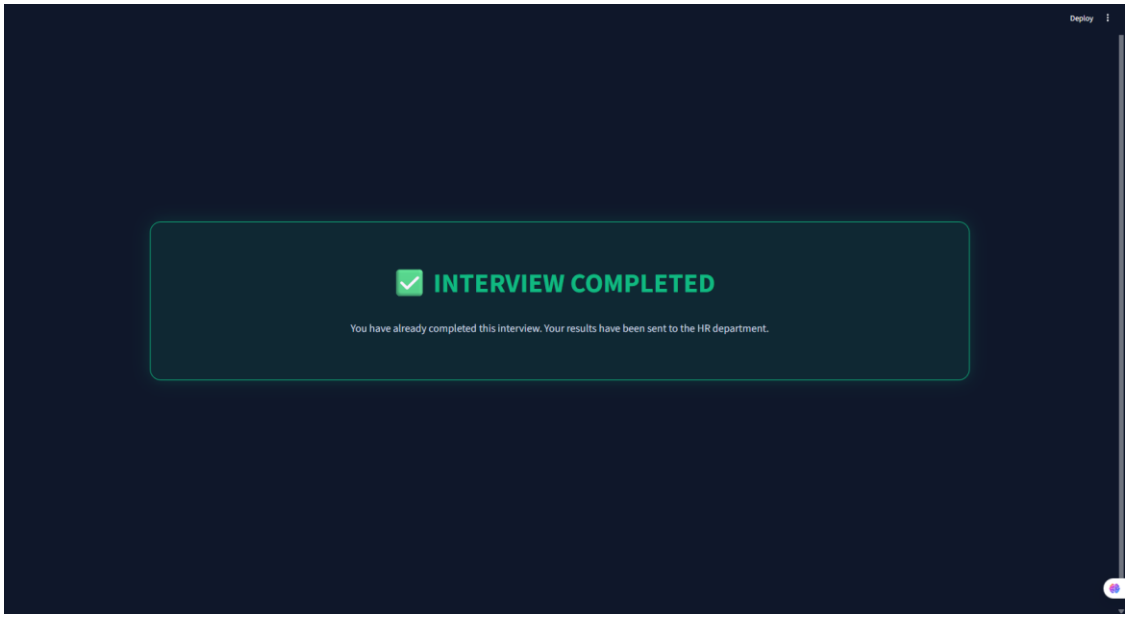
Click the Mic to Record Your Answer
Please record your audio answer to proceed.

Slide 4: Real-Time Processing & Handoff




- **Automated Data Bundling:** Once all 5 questions are answered, the system compiles the video, 5 audio files, and metadata.
- **Backend Trigger:** Seamlessly hands the data over to the AI Evaluation Engine (Whisper + GPT-3.5 + OpenCV) while keeping the candidate informed with a progress screen.
- **Secure Database Commit:** Final scores and summaries are safely encrypted and pushed to the SQLite database, ready for HR review.
